

Melissa Kim Corter

Depth Psychologist & Author

About Melissa

As a highly empathic, intuitive child, Melissa Kim Corter was fascinated with other people's basements. Dark, unexplored spaces enthralled her, and her insatiable curiosity toward the hidden dimensions of the mind led to decades of exploring the shadow dynamics within the human psyche and in nature.

Melissa is a Depth Psychologist and international bestselling author, she studies darkness. Her unique style of writing blends depth psychology with creative and symbolic forms found in film, fairy tales, and forensics. After twenty years as a certified hypnotherapist and consultant, Melissa's work with the dark night of the soul, psychopathy, and encounters with darkness imbue her writing. Her work sometimes makes people uncomfortable as it draws on and celebrates the macabre, dark, and misunderstood dimensions of personality.

Speaking Topics

- Shadow Work
- Dreams & Nightmares
- Psychology of Fairytales
- Psychological Thrillers for Mental Health
- Narcissism & Psychopathy
